PROFESSIONAL EXPERIENCE

Freelance Web Developer | French Mastery Blueprint, Remote 01/2024 – 03/2024

- Designed and created a website for an online tutoring business.
- Designed the website from scratch, implementing the best SEO (Search Engine Optimization), UI/UX design, and web development practices.
- Perform on-going maintenance, updates, and troubleshooting through a recurring service setup.
- Technology used: React, HTML, CSS (Cascading Style Sheets), JavaScript

Fitness Instructor | Wyndemere, Wheaton, IL 05/2023 – Current

- Led senior(70yrs+) classes of 10-20 people through chair, standing, and aquatic exercise routines.
- Focused on a variety of movements incorporating strength, balance, mobility, and cardiovascular fitness.
- Demonstrate with clarity a variety of movements with progressions/regressions depending on client skill level and/or specific issues (injuries).

Web Development | The Fitbook, Remote 09/2023 – 06/2024

- Creating a personal project that implements a digital fitness journal to track workouts, goals, and progress.
- Created a log component that tracks user's workouts by date, allows users to create exercises, add/edit sets, time workouts, and drag/drop exercises to re-order the log.
- Implemented a dashboard that displays various metrics: workouts logged for the given week, latest personal record (PR), and average time per workout.
- Technology used: React, React Router, HTML, CSS, JavaScript, Firebase

Freelance Web Developer | H4 Training Team Notes, Remote 12/2023 – 05/2024

- Created a web application for a successful fitness studio. "H4 Team Notes" is a web app to allow better communications and standardization of certain protocols within the team.
- Built out a system to track team notes regarding various work-related tasks and created a client tracking

database to house client information.

- Designed the web application from scratch with feedback from the team at regular intervals. Adhered to software development best practices.
- Technology used: Next.js, Tailwind.js, React, HTML, CSS, JavaScript, PostgreSQL

Freelance Web Developer | Income & Expenses Budgeting App, Remote **08/2022 – 08/2022**

- Created a simple application that had a dashboard page to display snapshots of total income, expenses, and income after expenses; an expenses component that allowed users to store expense items to their database; and an income component that displayed total income and income entries.
- Utilized Firebase Authentication and Firestore database.
- Designed the application with the user in mind, creating a seamless user-friendly experience.
- Technology used: React, React Router, HTML, CSS, JavaScript, Firebase

Freelance Web Developer | M&G Clean Pros Website, Remote **09/2021 – 10/2021, redesigned 08/2022 - 09/2022**

- Created a website for a small cleaning business in my area.
- Designed the website with the best SEO, web, and UI/UX design and development practices, and delivered products to the client in a timely and organized manner.
- After the business grew and developed their brand, I redesigned the website to better suit their personal brand and story.
- Technology used: React, React Router, HTML, CSS, JavaScript

Fitness Coach and Website Manager | H4 Training LLC, Wheaton, IL 01/2020 – Current

- Consulted with clients to define personal health needs, formulate effective fitness, nutritional or rehabilitation plans and improve overall well-being.
- Demonstrate with clarity a variety of movements with progressions/regressions depending on client skill level and/or specific issues (injuries).
- Created social media graphical content and performed website maintenance for the business, utilizing WordPress and various plugins.
